Innovative Film Tapes Everything

- Leveraging global buyers' resources to precisely matchmake with exhibitors
- Fulfilling business transactions to expand market share and enhance brand exposure
- Boosting the high-quality development of exhibitors to elevate its industrial influence

40,000m² Exhibition Area | **600+** Exhibitors | **50,000+** Visitors | **3,000** Overseas Visitors

*The above scale does not include concurrent NEPCON AISA and AUTOMOTIVE WORLD CHINA.

UNIQUE VALUES WE PROVIDE

Exclusive customer service, facilitates discoveries of new customers in high value-add industries

120,000 buyers from high value-added application industries for functional films and adhesive tapes, including touch displays, new energy, consumer electronics, plastic packaging, printed labels, 3C home appliances, automobiles, die-cutting processing, and semiconductors will gather at the exhibition site. **The organizer, through exclusive "Reception Rooms", offers enterprises TAP business matchmaking services;**

365-day customized marketing services empower brands through promotion and exposure

By holding various activities, like **pre-exhibition online procurement and trade matchmaking meetings, new product launch conferences, offline forums**, as well as providing multi-channel integrated marketing through WeChat public accounts, WeChat Moments, community groups, video accounts, TikTok, official websites, EDM, text message, Facebook and other platforms, corporate products are exposed to new markets and brand image is enhanced, **with 365 days of full industry contact;**

Brush shoulders with industry elites and explore new horizons

During the exhibition period, more than **30+** high-end trending theme forums and business dinners will be held, gathering big names throughout the industry chain. More than **4,000** industry representatives will participate in concurrent activities, meeting with Chinese industry elites to establish contact and facilitate cooperation;

Multiple exhibitions connect you with more audiences, comprehensively linking the film tape and coating die-cutting industry to terminal applications

This exhibition will be held simultaneously with HIGHLY-FUNCTIONAL MATERIAL EXPO, C-TOUCH & DISPLAY SHENZHEN, 11th INTERNATIONAL FLUORINE & SILICONE MATERIAL INDUSTRY AND APPLICATION EXHIBITION, NEPCON ASIA, AUTOMOTIVE WORLD CHINA, ES SHOW and six other exhibitions. With their networks pooled, the exhibitions provide more terminal application purchaser resources.

INNOVATIVE EXHIBITION ZONE

New Energy Materials and Equipment Zone

The new energy materials and equipment special exhibition area encourages quick penetration of unexplored new energy lithium batteries and photovoltaic key materials markets by film and tape companies.

International Pavilion

In collaboration with Japanese, South Korean, and European associations, chambers of commerce, and consulates, this area facilitates international exchange and cooperation.

Intelligent Manufacturing Zone

In the face of high labor costs, low efficiency and other challenges plaguing the current manufacturing industry, the intelligent manufacturing exhibition area is designed to pave a way forward with intelligent solutions.

Highly-Functional Material Zone

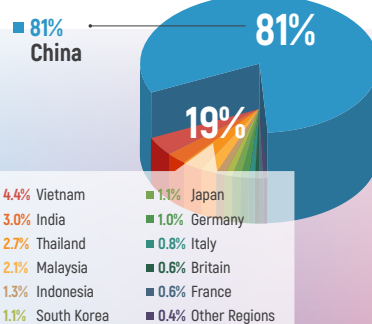

Have face-to-face technical exchanges and discussions with product R&D designers at the exhibition; find highly-functional material suitable for new product applications.
